## About the Institute

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies.

The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

## About the Department

### CIVIL:

Civil engineering is professional engineering discipline that deals with the design, construction, and maintenance of the physical and naturally built environment, including public works such as roads, bridges, canals, dams, airports, sewerage systems, pipelines, structural components of buildings, and railways. It is rightly considered the most versatile amongst all engineering branches. It is the branch with a lot of diversity right from surveying, geo-technology to structural engineering, environmental sciences to hydraulics, and transportation to hydrology. Civil engineering can be considered as the single largest core engineering branch.

Priyadarshini institute of technology and Management, Pullatigunta. Organized certificate program on ETABS for B.Tech& M.Tech students by the resource person Mr. K.DAYAKARA BABU Assistant Professor Department of civil engineering. ETABS is a sophisticated, yet easy to use, special purpose analysis and design program developed specifically for building systems. ETABS 2016 features an intuitive and powerful graphical interface coupled with unmatched modeling, analytical, design, and detailing procedures, all integrated using a common database. Although quick and easy for simple structures, ETABS can also handle the largest and most complex building models, including a wide range of nonlinear behaviors necessary for performance based design, making it the tool of choice for structural engineers in the building industry Dating back more than 40 years to the original development of ETABS, The predecessor of ETABS, it was clearly recognized that buildings constituted a very special class of structures. Early releases of ETABS provided input, output and numerical solution techniques that took into consideration the characteristics unique to building type structures, Total 95 students were participated in this training program.

### **OBJECTIVES OF THE PROGRAM**

The objectives of the program are

- Easily analyze the structures and design buildings and structures according to the need
- Will stay aware of the new techniques and perfect ways to implement for the precise structuring
- Analyze and provide techniques to build new design buildings and structures
- Add up more upgrade in your profile to gain the perfect opportunity from the prestigious organizations
- Become eligible to earn a good amount of salary and new ways to grow in your career

### **OUTCOME OF THE PROGRAM ARE**

Outcome of the program are

- Student will easily create models using objects and can understand the concepts when editing and creating complex models.
  - Student will be able to recognize story levels and be able to input building data in a logical and easy manner.
  - Student will have the ability to work with people spanning in different disciplines with productive, innovative, and communicative skills.
  - Student will create only one model of the floor systems and the vertical and lateral framing systems to be able to analyze and design the entire building due to the integrated system of ETABS.
  - Student can keep their design data and design intellectual property in graphics, tabular form or send it to a printer or export it to a database file or even save it as an ASCII file and manage them in a safe, centralized place. Student can let their team collaborate with them at any stage of product development

## About the Institute

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies.

The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

## About the Department

### EEE:

Department of Electrical and Electronic Engineering (EEE) – a hub of innovation and excellence in the realm of technology. Our department stands at the forefront of cutting-edge advancements, offering a dynamic learning environment where students are empowered to explore, create, and shape the future. With a dedicated faculty of experts, state-of-the-art laboratories, and a commitment to fostering both theoretical understanding and practical skills, we prepare our students to tackle real-world challenges and lead in industries spanning from electronics and power systems to communications and beyond. Join us in the journey of discovery and innovation in the fascinating world of Electrical and Electronic Engineering.

## About the Programme

Understand measuring parameters, measuring systems, effects of environment, characteristics

- parameters to be considered for designing an instrument.

Understand different types of sensors/transducers, working principles, selection procedure

- applications of sensing systems. Understand Challenges and applications of sensors and sensor networks

- Select a sensor/sensing system for a requirement
- Test, install and collect the data from a group of sensors
- Derive sensor-based solution for different applications.

## Objectives of the Programme

- To make student to acquire the knowledge on types of sensors/transducers, working principles, selection procedure, and applications of sensing systems.
- Case studies in processing industries, indoor environment monitoring in offices, cold storages
- Case studies in manufacturing industries, robotics.
- Case studies in processing industries, oil and gas industries, water SCADA, pharmaceutical industries

## Topics to be covered

- Introduction To Measurement
- Measurement units, applications, elements, choosing appropriate measuring instruments.
- Instrument Types and Performance Characteristics: Review of instrument types
- Static characteristics and dynamic characteristics.
- Error During Measurement Process: Sources of systematic error, reduction and quantification of systematic errors, random errors, aggregation of measurement system errors.
- Calibration: Calibration of measuring instruments, Primary calibration secondary standard and field calibration. **PRINCIPAL PRIYADARSHINI INSTITUTE OF TECHNOLOGY & MANAGEMENT 5th Mile, Pulladigunta, KORNEPADU (Vil), GUNTUR-522 017.**
- Calibration Methods, for different parameters (temperature, pressure, humidity, flow...etc.).
- Automatic Calibration mechanisms.
- Temperature Sensors: Thermo-resistive Resistance Temperature Detectors, Silicon Resistive, Thermistors, Semiconductor, Optical, Acoustic, Piezoelectric.

## PROGRAM REPORT

DATE: 13/02/2021

**Name of the event:** A Ten days Certification Course On “DIGITAL SENSORS” By Priyadarshini Institute of Technology and Management, Pulladigunta.

**Date of Event:** 02-02-2021 to 12-02-2021.

**Resource person:** Smt . P. KAVITHA, Assoc .prof. Dept of EEE

**CONTACT NO:** 9908869922

**EMAIL:** kavithavenkat@2925gmail.com

**Name of the coordinator:** SK. SALEEM

**Organized by:** DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING

**Number of students attended:** 60

**Venue:** seminar hall, Priyadarshini institute of technology and management

Priyadarshini institute of technology and management, Pulladigunta. Organized A Ten -Days certification course on “DIGITAL SENSORS” for B. tech and M. tech students by the resource person Smt.P.KAVITHA,. To make student to acquire the knowledge on types of sensors/transducers, working principles, selection procedure. and applications of sensing systems.

**Objectives:**

- Case studies in processing industries, indoor environment monitoring in offices, cold storages...
- Case studies in manufacturing industries, robotics.
- Case studies in processing industries, oil and gas industries, water SCADA, pharmaceutical industries.

**Learning Outcomes:**

At the end of this course the student will be able to:

## About the Institute

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies. The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

## About the Department

ME:

We train the next generation of 'whole-brain' mechanical engineers to lead with both creativity and analytical thinking. We pursue fundamental principles at the core of mechanical sciences and their interface with other scientific disciplines, and we generate new products, processes, and systems that create lasting societal impact.

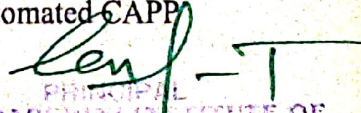

To be truly innovative, mechanical engineers of the future need to understand the basics of mechanics, manufacturing, and systems while integrating aspects of other disciplines. With its collaborations across departments and institutions, the Department of Mechanical Engineering educates the engineers of the future while conducting leading-edge research in Advanced Manufacturing, AI and Design, Bio systems and Health, Computational Engineering, Energy and Sustainability, Micro/nano engineering, and Robotics and Autonomy.

## About the Programme

- The course will use to gain knowledge about Robotics.
- The most advanced level of automation is intelligent automation.
- It combines automation with artificial intelligence (AI) and machine learning (ML) capabilities.
- This means that machines that automations can continuously "learn" and make enable better decision making and actions based on data from past situations they have encountered and analyzed.

## Objectives of the Programme

- Introduction to manufacturing
- Introduction to Production system
- Introduction to NC technology
- NC technology Part-1, Part-2
- Flexible Manufacturing Systems
- Introduction to Robotic System
- Introduction to Automated CAPP

**Report on certificate program on “AUTOMATION IN PRODUCTION SYSTEM AND MANAGEMENT”**

**PROGRAM REPORT**

Name Of The Event : A Ten days certificate program on “ AUTOMATION IN PRODUCTION SYSTEM AND MANAGEMENT”

Date : 26-03-2021 and 06-04-2021

Resource Person : **CH.PAVAN KUMAR** Assistant professor,

**Department of Mechanical engineering**

Contact number: 7780792553

Email ID: pavanME304@gmail.com

Name of The Coordinator : **Mr. K.SAMBAIAH**, associate professor

**Department of Mechanical engineering**

Number of Student Attended : 105

Venue : Seminar Hall, Priyadarshini institute of technology and Management.

Priyadarshini institute of technology and Management, Pullatigunta. Organized certificate program on AUTOMATION IN PRODUCTION SYSTEM AND MANAGEMENT ENERGY for B.Tech students by the resource person Mr.CH.PAVAN KUMAR. To introduce the fundamentals of automation in manufacturing systems with major emphasis on application of the state-of-the-art techniques and processes so as to achieve the best possible planning and control in a manufacturing and production environment. The knowledge in the topics as mentioned in the course outline is essential to achieve this objective. The course is intended to be designed for creating a knowledge-base of the state-of-the-art manufacturing systems particularly in designing and developing automated systems and sub-systems. The course is designed to teach the basic

concepts, and tools and techniques and methods employed in the broad area of automation of manufacturing and production, in general, and computer-based numerical control, flexible manufacturing system, process planning in manufacturing, in particular, to the students at the undergraduate and post-graduate levels

### **OBJECTIVES OF THE PROGRAM**

- The course will use to gain knowledge about Robotics.
- The most advanced level of automation is intelligent automation.
- It combines automation with artificial intelligence (AI) and machine learning (ML) capabilities.
- This means that machines that automations can continuously “learn” and make enable better decision making and actions based on data from past situations they have encountered and analyzed.
- For example, in customer service, virtual assistants powered by AI/ML can reduce costs while empowering both customers and human agents, creating an optimal customer service experience. AIOps and digital workers are examples of intelligent automation.

### **OUTCOMES OF THE PROGRAM**

- Students will become the automation and control engineers with good basic knowledge, both in theory and in experiments.
  - Students master the methodology for conducting research, have critical thinking and creativity; have ability of self-learning and studying automatic control at graduate level.
  - Students are able to design, implement, operate the control systems; manage, consult, and provide technical support on automatic control products and projects.
  - Students are trained to be automation and control engineers with good specialized knowledge as well as good health and professional ethics
  - Students will be able to complete knowledge about automation& production systems
  - Students able to know the programming on NC technology.
  - Students able to know about the Manufacturing systems involved in Automation
  - Students will know the Fundamentals of Robotic systems.
  - Students will learn Automated CAPP.

## About the Institute

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies. The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

## About the Department

### ECE:

The department of Electronic and Communication Engineering is offering the undergraduate course (B.TECH) in Electronic and Communication Engineering and one post graduate course (M.TECH) in VLSI Design. The B. Tech. program was started in 2007. ECE department has more than 20 qualified and experienced faculty.

The department organized several symposiums, guest lectures, and workshops. They were encouraged to attend international and national conferences and to present their research work. They usually publish their research work in reputed international and national journals. The department is also encouraging all faculty members and students to join professional bodies and participate in activities. And to engage modern education aids, laboratories, and competent faculty to ensure effective teaching and learning processes to meet the ever-growing and changing industrial and business environments. To continuously challenge the young minds with ideas to carry out innovative research through interaction with research organizations and industry.

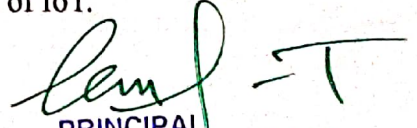

## About the Programme

The student will be able to:

- Understand internet of Things and its hardware and software components.
- Interface I/O devices, sensors & communication modules.
- Remotely monitor data and control devices.
- Design real time IoT based applications

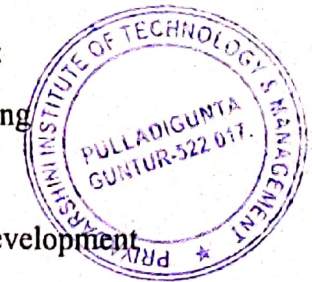

## Objectives of the Programme

- To learn and understand elements of IoT system.
- Acquire knowledge about various protocols of IoT.
- To learn and understand design principles and capabilities of IoT.

No of Students: 105

Venue: Seminar Hall, Priyadharsini institute of technology and management.

PRIYADHARSINI INSTITUTE OF TECHNOLOGY AND MANAGEMENT, Guntur, Organized certificate program on "IOT AND APPLICATIONS" for B. Tech. students by the resource person P. VEERESH KUMAR. The Internet of Things describes the network of physical objects. "Things" that are embedded with sensors, software and other technologies for the purpose of connecting and exchanging data with other devices and systems over the internet. Totally 105 students were participated in this training program and their completion of the program they were able to understand the following objectives and learning outcomes.

### Course Objectives:

- To learn and understand elements of IoT system.
- Acquire knowledge about various protocols of IoT.
- To learn and understand design principles and capabilities of IoT.

### Learning Outcomes:

The student will be able to:

- Understand internet of Things and its hardware and software components.
- Interface I/O devices, sensors & communication modules.
- Remotely monitor data and control devices.
- Design real time IoT based applications

## About the Institute

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies.

The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

## About the Department

### CSE:

The Department of Computer Science and Engineering, established in 2008, is one of the most dynamic departments of Priyadarshini Institute Of Technology and management. I am really elated to tell that the department stands on the strength of experienced and well qualified faculty who are very dedicated to teaching and also involved in up-gradation of knowledge. Their research experience will help to cultivate the future of our students. With great demand in industry and great placement opportunities, the department stands tall and proud. Our students are not only academically sound and disciplined but they also organize various events. Welcome to the exciting world of Computer Science Engineering (CSE), a field that drives innovation, shapes the digital age, and empowers the technology-driven society we live in. CSE professionals are the architects of the digital realm, designing, developing, and optimizing the software and systems that power our world betterment of the society.

## About the Programme

Computer networking and system security, where the interplay between interconnected devices meets the imperative need for safeguarding digital landscapes. In today's interconnected world, computer networks serve as the backbone of communication and information exchange. This intricate web of connections facilitates the seamless flow of data across devices, but it also demands robust security measures to shield against the myriad threats looming in the digital domain.

## Objectives of the Programme

- Establish Secure Communication:
- Network Reliability and Availability:
- Protect Against Unauthorized Access:
- Data Integrity and Confidentiality:
- Vulnerability Management:
- Intrusion Detection and Prevention:
- User Education and Awareness:
- Secure System Configuration:
- Incident Response and Recovery.
- Compliance with Regulations.

## Topics to be covered

- Introduction to Computer Networks.
- Network Architecture and Design.
- Network Protocols and Standards.
- Wireless Networking.
- Network Security Fundamentals.
- Access Control and Authentication.
- Security in the OSI Model.
- Vulnerability Assessment and Penetration Testing.
- Firewall Technologies.
- Intrusion Detection and Prevention Systems (IDPS).
- Virtualization and Cloud Security.
- Incident Response and Forensics.
- Secure System Configuration.
- Network Monitoring and Analysis.
- Cryptography and Encryption.

## About the Department

### CSE:

The Department of Computer Science and Engineering, established in 2008, is one of the most dynamic departments of Priyadarshini Institute Of Technology and management. I am really elated to tell that the department stands on the strength of experienced and well qualified faculty who are very dedicated to teaching and also involved in up-gradation of knowledge. Their research experience will help to cultivate the future of our students. With great demand in industry and great placement opportunities, the department stands tall and proud. Our students are not only academically sound and disciplined but they also organize various events. Welcome to the exciting world of Computer Science Engineering (CSE), a field that drives innovation, shapes the digital age, and empowers the technology-driven society we live in. CSE professionals are the architects of the digital realm, designing, developing, and optimizing the software and systems that power our world betterment of the society.

### About the Programme

Amazon Web Services (AWS) Cloud, a pioneer in cloud computing, that has revolutionized the landscape of providing Vastly enhanced infrastructure. AWS, a subsidiary of Amazon.com, provides a comprehensive suite of cloud computing services, offering organizations the flexibility, scalability, and innovation required to thrive in today's dynamic business environment. Boasting a global network of data centers strategically positioned across the globe, AWS empowers businesses to build, deploy, and manage applications with unprecedented speed and efficiency

## Objectives of the Programme

- Facilitate Scalability: Enable organizations to scale their computing resources up or down based on demand, ensuring optimal performance and cost efficiency.
- Enhance Flexibility: Provide a flexible and dynamic cloud infrastructure that allows businesses to adapt quickly to changing requirements and technologies.
- Ensure Reliability: Deliver a highly reliable and available cloud platform with redundant infrastructure and services to minimize downtime and disruptions.
- Optimize Cost Management: Enable efficient cost control through pay-as-you-go models, allowing organizations to pay only for the resources they consume.
- Enable Global Reach: Support global expansion by offering a network of data centers worldwide, allowing businesses to deploy applications closer to end-users for improved performance.

### Topics to be covered

- Introduction to Cloud Computing:
- AWS Identity and Access Management (IAM):
- Amazon Elastic Compute Cloud (EC2):
- Amazon Simple Storage Service (S3):
- Amazon Relational Database Service (RDS):
- AWS Networking
- Elastic Load Balancing (ELB) and Auto Scaling.
- AWS Security Best Practices
- Implementing security measures, encryption, and compliance in AWS environment

## About the Department

### MBA:

A master of business administration (MBA) is a graduate degree that provides theoretical and practical training for business or investment management. An MBA is designed to help graduates gain a better understanding of general business management functions.

Many schools now offer specialty programs, like sports management, the entertainment business, or healthcare management. Executive MBA programs are available for experienced professionals who cannot commit to a full-time schedule. MBA programs may be full-time, part-time, online, or international, and each program usually has a varying degree of requirements for acceptance

## About the Programme

- Green marketing is the practice of advertising products or services as environmentally safe.
- Benefits of green marketing include increased profits and appeal to environmentally conscious consumers.
- Organizations can implement green marketing by using sustainable products, implementing appropriate waste disposal procedures and using digital advertising mediums instead of print materials.

**PRIYADARSINI INSTITUTE OF TECHNOLOGY AND MANAGEMENT, Guntur,** Organized certificate program on “GREEN MARKETING” for I & II MBA students by the resource person: **Mr. R.SUDHAKAR**. Green marketing is the practice of promoting products or services that are environmentally friendly or have a positive impact on the planet. It involves incorporating sustainability principles into various aspects of marketing, such as product design, packaging, messaging, and promotion.

Green, environmental and eco-marketing are part of the new marketing approaches which do not just refocus, adjust or enhance existing marketing thinking and practice, but seek to challenge those approaches and provide a substantially different perspective

**Course Objective:**

The objectives of green marketing are boiled down in the points given below:

- To adhere to corporate social responsibility.
- To reduce expenses.
- To showcase how environment-friendly the company's offerings are.
- To communicate the brand message
- To implement sustainable and socially accountable business practices.

### Learning outcomes

- Producing sustainable products
- Using sustainable materials to make products
- Responsible waste disposal
- Opting for electronic marketing
- Implementing eco-friendly energy practices
- Using emission-minded shipping practices
- Promoting a green alliance
- Investing in your community
