CIRCULAR

This is hereby to inform all the III, IV B. Tech and I, II M. Tech students that the CIVIL department is organizing a ten days certification course on "REVIT ARCHITECTURE" by Mrs. S. MADHU BALA Assistant professor of CIVIL From 10-06-2019 to 20-06-2019. So all the students are here by informed to give the names on or before 10-06-2019 and utilize this opportunity by attending the classes.

Venue: Computer lab

Timing: 10:00 AM TO 1:00 PM

Guntur
Andhra Pradesh-522017, INDIA

About the Institute

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies.

The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

About the Department

CIVIL:

Civil engineering is professional engineering discipline that deals with the design, construction, and maintenance of the physical and naturally built environment, including public works such as roads, bridges, canals, dams, airports, sewerage systems, pipelines, structural components of buildings, and railways. It is rightly considered the most versatile amongst all engineering branches. It is the branch with a lot of diversity right from surveying, geo-technology to structural engineering, environmental sciences to hydraulics, and transportation to hydrology. Civil engineering can be considered as the single largest core engineering branch.

About the Programme

Department of civil engineering Planners and other building experts use Autodesk Revit Architecture to reduce risk, gain insight into how buildings can work before construction begins, produce higher-quality designs, and improve project delivery. By using Revit Architecture WE can quickly monitor the Construction of a Building that wraps around refinery handling supplies and recognize an irregular state of potential support and improvements, thanks to a building and structural administrations company. Any smart model created with Revit Architecture refers to a larger area and is saved in a single database record. Finally, Revit Architecture is creates precise building plans in a virtual world while reducing the time it takes to coordinate and outline. As a result, thoughts can be worked through more quickly, and continuity can be maintained through activities

Objectives of the Programme

- Understand the basic concepts and principles of Revit Architecture
- Understand different terms used in Revit Architecture.
- Understand the parametric behavior of Revit Architecture.
- Use different components of the User Interface screen of Revit Architecture.

Topics to be covered

- Introduction to Autodesk Revit Architecture
- User Interface Tour
- Browsers, Bars, Palettes and Windows
- Revit Architecture Help
- Starting an Architectural Project
- Starting a New Architectural Project
- Navigation Tools
- Configuring Global Settings
- Creating Walls, Using Basic Building Components-I
- Creating Architectural Walls
- Creating Architectural Walls II
- Adding Doors
- Adding Windows and Wall Openings
- Using the Editing Tools
- Working with Selection Sets
- Editing Tools
- Editing Tools II

PROGRAM REPORT

Name Of The Event	: A ten days certificate program on “revit architecture”
Date	: 10-06-2019 to 20-06-2019
Resource Person	: Mrs. S.MADHU BALA assistant professor. Department of civil engineering Contact number: 9849720349 Email ID: madhubala.civil123@gmail.com
Name of The Coordinator	: Ms. T. Monika assistant professor, Department of civil engineering
Number of Student Attended	: 110
Venue	: Computer lab, Priyadarshini institute of technology and management.

Priyadarshini institute of technology and Management, Pullatigunta. Organized certificate program on REVIT ARCHITECTURE for B.Tech students by the resource person Mrs. S.MADHU BALA assistant professor, Department of civil engineering Planners and other building experts use Autodesk Revit Architecture to reduce risk, gain insight into how buildings can work before construction begins, produce higher-quality designs, and improve project delivery. BY USING Revit Architecture WE can quickly monitor the Construction of a Building that wraps around refinery handling supplies and recognize an irregular state of potential support and improvements, thanks to a building and structural administrations company. Any smart model created with Revit Architecture refers to a larger area and is saved in a single database record. Finally, Revit Architecture is creates precise building plans in a virtual world while reducing the time it takes to coordinate and outline. As a result, thoughts can be worked through more quickly, and continuity can be maintained through activities.

OBJECTIVES OF THE PROGRAM

The objectives of the program are

- Understand the basic concepts and principles of Revit Architecture
- Understand different terms used in Revit Architecture.
- Understand the parametric behavior of Revit Architecture.
- Use different components of the User Interface screen of Revit Architecture.

OUTCOME OF THE PROGRAM

By the end of this course you will be able to confidently do the following:

- Create architectural floor plans, building elevations, sections & construction details
- Extract quantities & material take-off schedules
- Create 3D models and renderings using Autodesk renderer
- Export model and drawings to common platforms e.g.; CAD, 3dMax, Adobe PDF

About the Institute

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies. The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

About the Department

EEE:

Department of Electrical and Electronic Engineering (EEE) – a hub of innovation and excellence in the realm of technology. Our department stands at the forefront of cutting-edge advancements, offering a dynamic learning environment where students are empowered to explore, create, and shape the future. With a dedicated faculty of experts, state-of-the-art laboratories, and a commitment to fostering both theoretical understanding and practical skills, we prepare our students to tackle real-world challenges and lead in industries spanning from electronics and power systems to communications and beyond. Join us in the journey of discovery and innovation in the fascinating world of Electrical and Electronic Engineering.

About the Programme

- Will understand importance of power system deregulation and restructuring.
- Able to compute Available Transfer Capability.
- Will understand transmission congestion management.
- Able to compute electricity pricing in deregulated environment.
- Will be able to understand power system operation in deregulated environment.
- Will understand importance of ancillary services.

Objectives of the Programme

- To study fundamentals of power system deregulation and restructuring.
- To study available transfer capability.
- To study congestion management
- To study various electricity pricing methods.
- To study operation of power system in deregulated environment.
- To study importance of Ancillary services management.

Topics to be covered

- Over view of key issues in electric utilities
- Introduction – Restructuring models
- Independent system operator (ISO)
- Power Exchange
- Market operations
- Market Power – Standard cost
- Management of Inter zonal
- Transmission Pricing – Congestion
- Pricing
- Intra zonal Congestion
- Available Transfer Capability (ATC)
- Structure of OASIS
- Processing of Information
- Transfer capability on OASIS

PROGRAM REPORT

DATE:25/08/2019

Name of the event: A Ten -Days certification course On "POWER SYSTEM REFORMS" By Priyadarshini Institute of Technology and Management, Pulladigunta

Date of Event: 13-08-2019 to 24-08-2019

Resource person: Mr. SURYA CHANDRA. Asst .prof.Dept of EEE

CONTACT NO: 8297877265

EMAIL: swarnasuryachandra@gmail.com

Name of the coordinator: Mr. SK.SALAM BABU

Organized by: DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING

Number of students attended: 100

Venue: seminar hall, Priyadarshini institute of technology and management

Priyadarshini institute of technology and management, Pulladigunta, Organized a two-week certification course on "POWER SYSTEM REFORMS" for B. tech and M. tech students by the resource person Mr. SURYA CHANDRA This course introduces the concepts and issues of power system reforms and aims at computation of Available Transfer Capability (ATC), Congestion Management, Electricity Pricing, Ancillary services Management and Power system operation in competitive Environment.

PRIYADARSHINI INSTITUTE OF TECHNOLOGY AND MANAGEMENT
5th mile, PULLADIGUNTA, Korrapadu (V), Vallabherikur (M), GUNTUR 522017 (A.P.)

Approved by AICTE, Affiliated to JNTUK

www.pitrgunt.ac.in

Objectives:

- To study fundamentals of power system deregulation and restructuring.
- To study available transfer capability.
- To study congestion management
- To study various electricity pricing methods.
- To study operation of power system in deregulated environment.
- To study importance of Ancillary services management.

Learning Outcomes:

- Will understand importance of power system deregulation and restructuring.
- Able to compute Available Transfer Capability.
- Will understand transmission congestion management.
- Able to compute electricity pricing in deregulated environment.
- Will be able to understand power system operation in deregulated environment.
- Will understand importance of ancillary services.

Certificate of Participation

This is to certify that

Dr./Mr./Mrs./Ms. V. Rama Krishna. has participated in

A ten days Certificate course on POWER SYSTEM REFORMS organized by
department of EEE held at Priyadarshini Institute of Technology & Management,
Guntur-522 017, INDIA, from 13/08/2019 to 24/08/2019.

Date: 16-11-2019

CIRCULAR

This is hereby to inform all the II,III&IV B.Tech students that the MECH department is organizing a two-Week certification course on "ADVANCED CNC" by MR.Dr.D.SIVA BHASKARA RAO Associate professor of MECH From 19-11-2019 and 29-11-2019. So all the students are here by informed to give the names on or before 18-11-2019 and utilize this opportunity by attending the classes.

Venue: Seminar Hall

Timing: 10:00 AM TO 4:00 PM

Guntur

Andhra Pradesh-522017, INDIA

About the Institute

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies. The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

About the Department

ME:

We train the next generation of 'whole-brain' mechanical engineers to lead with both creativity and analytical thinking. We pursue fundamental principles at the core of mechanical sciences and their interface with other scientific disciplines, and we generate new products, processes, and systems that create lasting societal impact.

To be truly innovative, mechanical engineers of the future need to understand the basics of mechanics, manufacturing, and systems while integrating aspects of other disciplines. With its collaborations across departments and institutions, the Department of Mechanical Engineering educates the engineers of the future while conducting leading-edge research in Advanced Manufacturing, AI and Design, Bio systems and Health, Computational Engineering, Energy and Sustainability, Micro/nano engineering, and Robotics and Autonomy.

About the Programme

- The course will give knowledge about CNC
- The course will use to gain knowledge about CNC Programming, Advanced Manufacturing levels in CNC

Objectives of the Programme

- The objective of the courses is to develop in-depth knowledge for the following: CNC machine & controls. History & development of CNC technology. Conventional Vs non-conventional machine tool
- Prepare operation and Operation sequence for the lathe operations like Turning, grooving etc.
- Calculate parameters like speed feed, depth of cut etc.

Topics to be covered

- programs for CNC turning operations
- calculate parameters like speed feed etc.
- Biomass Energy
- Inspect simple geometrical forms
- CNC milling operations.
- Various methods of work process
- edge finding block center etc.

Report on certificate program on “ADVANCED CNC PROGRAMING”

PROGRAM REPORT

Name Of The Event : A Ten days certificate program on” ADVANCED CNC”

Date : 19-11-2019 and 29-11-2019.

Resource Person : Dr. D.Siva Bhaskara Rao Associate professor,

Department of Mechanical engineering

Contact number: 8555929601

Email ID: sivabhaskarara56@gmail.com

Name of The Coordinator : K.MALLESWARA RAO, associate professor,

Department of Mechanical engineering

Number of Student Attended : 105

VENUE : Seminar Hall, Priyadarshini institute of technology and Management.

Priyadarshini institute of technology and Management, Pulladigunta. Organized certificate program on Advanced CNC for B.Tech students by the resource person **Dr.D.Siva Bhaskara Rao**. CNC machining is considered an advanced manufacturing technique because it automatically makes parts with little to no human intervention.

The introduction of the microprocessor in the 1970s further reduced the cost of implementation, and today almost all CNC machines use some form of microprocessor to handle all operations.

dramatically reduced. CNC automation reduced the frequency of errors and provided CNC operators with time to perform additional tasks.

CNC automation also allows for more flexibility in the way parts are held in the manufacturing process and the time required changing the machine to produce different components.

OBJECTIVES OF THE PROGRAM

- Evaluate manufacturing assignment based on critical thinking and problem solving skills. Become a good communicator and effective team member.
- Practice writing complex “G” code programs for CNC turning centers that meet the part specification
- Interpret and demonstrate complex “G” code programs for CNC milling centers that meet the part specification
- Prepare “G: code programs to perform secondary operations including tapping, countersinking, counter boring, and threading.

OUTCOMES OF THE PROGRAM

- Explain applications and advantages of CNC machines and technology
- Demonstrate understanding of common manufacturing processes other than machining.
- Demonstrate and explain various CNC control Calculate technological data for CNC machining
- Demonstrate understanding of common business considerations for companies in the manufacturing sector.
- Produce CNC programs using CAD/CAM software.
- Understand the importance and use of PPE’s
- Apply manufacturing design, planning and production concepts to a student project.
- Prepare and understand line program for various profiles Identify and set parameters for various simulators
- Prepare programs , demonstrate , simulate and operate CNC milling machines for various machining operations
- Define and explain Modern CNC systems and explain its importance in manufacturing

CIRCULAR

Date: 18-11-2019

This is here by inform all the students, that the ECE Department is organizing a 10 days certification course on “DIGITAL IC DESIGN” by Mr. B. Venkatesh, Associate Professor, PITM from 23-11-2019 to 04-12-2019. So All the students hereby informed to give the names on or before 20-11-2019 and utilize this opportunity by attending the classes.

Venue: Seminar Hall

Co-ordinator: Mr. P. Sanjay Krishnamal, Associate Professor, Dept. of ECE

About the Institute

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies. The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

About the Department

ECE:

The department of Electronic and Communication Engineering is offering the undergraduate course (B.TECH) in Electronic and Communication Engineering and one post graduate course (M.TECH) in VLSI Design. The B. Tech. program was started in 2007. ECE department has more than 20 qualified and experienced faculty.

The department organized several symposiums, guest lectures, and workshops. They were encouraged to attend international and national conferences and to present their research work. They usually publish their research work in reputed international and national journals. The department is also encouraging all faculty members and students to join professional bodies and participate in activities. And to engage modern education aids, laboratories, and competent faculty to ensure effective teaching and learning processes to meet the ever-growing and changing industrial and business environments. To continuously challenge the young minds with ideas to carry out innovative research through interaction with research organizations and industry.

About the Programme

At the end of this course the student will be able to:

- Understand the concepts of MOS Design.
- Design and analysis of Combinational and Sequential MOS Circuits.
- Extend the Digital IC Design to Different Applications.
- Understand the Concepts of Semiconductor Memories, Flash Memory, RAM array organization.

Objectives of the Programme

- The main objectives of this course are:
- The student will be able to understand the MOS Design.
- In this course, students can study Combinational MOS Logic Circuits and Sequential MOS Logic Circuits.
- Another main object of this course is to motivate the graduate students to design and to develop the Digital Integrated Circuits for different Applications.
- The concepts of Semiconductor Memories, Flash Memory, RAM array organization

Topics to be covered

- Hardware Description Languages
- CASE & LOOP
- Combinational Logic Design
- Multiplexers and de multiplexers
- Adders, Subtractors, Sequential Logic
- Binary counters
- Combinational MOS Logic Circuits, CMOS logic circuit
- AOI and OAI gates
- Sequential MOS Logic Circuits, JK latch

PROGRAM REPORT

Name of the Event: A 10-days certificate program on “DIGITAL IC DESIGN”.

Date: 23-11-2019 to 04-12-2019.

RESOURCE PERSON: Mr. B.VENKATESH Associate Professor, Dept. of ECE.

Contact number: 9100131789

Mail id : bvenkatesh36@gmail.com

Name of the co-ordinator: Mr. P. Sanjay Krishnamal Associate Professor Dept. of ECE

No of Students: 89

Venue: Seminar Hall, Priyadarshini institute of technology and management.

PRIYADHARSINI INSTITUTE OF TECHNOLOGY AND MANAGEMENT, Guntur, Organized certificate program on “DIGITAL IC DESIGN” for B. Tech. and M. Tech. Students by the resource person **B. VENKATESH**. Understand DIGITAL IC DESIGN Basic complete of IC design flow, a tool agnostic course. It starts with explaining the entire IC the practical challenges of the IC industry. it then goes on to the concepts of Digital IC functional design, including hardware concepts, low power concepts, and system verilog coding, followed by functional verification on the front end. it covers the back end and sign off section with synthesis, place and route, implementation, and digital sign off , followed by IC packaging concepts. Totally 89 students were participated in this training program and their completion of the program they were able to understand the following objectives and learning outcomes.

Course objectives:

The main objectives of this course are:

- The student will be able to understand the MOS Design.
- In this course, students can study Combinational MOS Logic Circuits and Sequential MOS Logic Circuits.
- Another main object of this course is to motivate the graduate students to design and to develop the Digital Integrated Circuits for different Applications.
- The concepts of Semiconductor Memories, Flash Memory, RAM array organization

Learning Outcomes:

At the end of this course the student will be able to:

- Understand the concepts of MOS Design.
- Design and analysis of Combinational and Sequential MOS Circuits.
- Extend the Digital IC Design to Different Applications.
- Understand the Concepts of Semiconductor Memories, Flash Memory, RAM array organization.

ABOUT THE INSTITUTE

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies.

The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

ABOUT THE DEPARTMENT

CSE:

The Department of Computer Science and Engineering, established in 2008, is one of the most dynamic departments of Priyadarshini Institute Of Technology and management. I am really elated to tell that the department stands on the strength of experienced and well qualified faculty who are very dedicated to teaching and also involved in up-gradation of knowledge. Their research experience will help to cultivate the future of our students. With great demand in industry and great placement opportunities, the department stands tall and proud. Our students are not only academically sound and disciplined but they also organize various events. Welcome to the exciting world of Computer Science Engineering (CSE), a field that drives innovation, shapes the digital age, and empowers the technology-driven society we live in. CSE professionals are the architects of the digital realm, designing, developing, and optimizing the software and systems that power our world betterment of the society.

ABOUT THE PROGRAMME

Java is divided into two parts i.e. Core Java (J2SE) and Advanced Java (JEE). The core Java part covers the fundamentals (data types, functions, operators, loops, thread, exception handling, etc.) of the Java programming language. It is used to develop general purpose applications. Whereas Advanced Java covers the standard concepts such as database connectivity, networking, Servlet, web-services, etc. In this section, we will discuss what is advance Java, its benefit, uses, topics of advance Java, and the difference between core Java and advance Java.

OBJECTIVES OF THE PROGRAMME

- The course covers Graphical User Interface (GUI) networking, and database manipulation.
 - Student will be able to use advanced technology in Java such as Internationalization, and Remote method Invocation
 - Student will learn how to work with JavaBeans.
 - Student will be able to develop web application using Java Servlet and Java
 - Server Pages technology.
- TOPICS TO BE COVERED**
- Design/Develop Program, Develop appropriate data model and database scheme
 - Create and test prototypes, Develop Structure
 - Identify major subsystems and interfaces
 - Validate design scheme and models
 - Implement Program, Write code
 - Perform unit testing, Integrate subsystems
 - Resolve defects and revise and adapt existing code
 - Perform Analysis, Define system and software requirements
 - Develop test requirements, Test and Validate Program
 - Develop test procedures, Perform tests

PROGRAM REPORT

Name of the Event: A one week Certification course on "ADVANCED JAVA PROGRAMMING"

Date: 19-09-2019 to 26-09-2019

Resource Person: Mr.G.Harinadha babu, Associate Professor

Email ID: ghababu.qa@gamil.com

Contact number:- 9490488943

Name of the coordinator: Mr. K. Kiran Kumar, Associate professor

Department of computer science & Engineering

Number of students attended: 114

VENUE: CSE Seminar Hall, PRIYADARSHINI INSTITUTE OF ENGINEERING AND MANAGEMENT

PRIYADARSHINI INSTITUTE OF ENGINEERING AND MANAGEMENT, Pulladigunta, organized certificate program on "ADVANCED JAVA PROGRAM" for Btech students by the resource person Mr.G.Harinadha babu. Java is divided into two parts i.e. Core Java (J2SE) and Advanced Java (JEE). The core Java part covers the fundamentals (data types, functions, operators, loops, thread, exception handling, etc.) of the Java programming language. It is used to develop general purpose applications. Whereas Advanced Java covers the standard concepts such as database connectivity, networking, Servlet, web-services, etc. In this section, we will discuss what is advance Java, its benefit, uses, topics of advance Java, and the difference between core Java and advance Java. Totally 114 students were participated in this training program and their completion of the program they were able to understand the following objectives and learning outcomes.

Objectives of the program:

- The course covers Graphical User Interface (GUI) networking, and database manipulation.
- Student will be able to use advanced technology in Java such as Internationalization, and Remote method Invocation
- Student will learn how to work with JavaBeans.
- Student will be able to develop web application using Java Servlet and Java Server Pages technology.

Learning Outcomes:

- Design/Develop Program, Develop appropriate data model and database scheme
- Create and test prototypes, Develop Structure
- Identify major subsystems and interfaces
- Validate design scheme and models
- Implement Program, Write code
- Perform unit testing, Integrate subsystems
- Resolve defects and revise and adapt existing code
- Perform Analysis, Define system and software requirements
- Develop test requirements, Test and Validate Program
- Develop test procedures, Perform tests

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies. The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

About the Department

CSE:

The Department of Computer Science and Engineering, established in 2008, is one of the most dynamic departments of Priyadarshini Institute Of Technology and management. I am really elated to tell that the department stands on the strength of experienced and well qualified faculty who are very dedicated to teaching and also involved in up-gradation of knowledge. Their research experience will help to cultivate the future of our students. With great demand in industry and great placement opportunities, the department stands tall and proud. Our students are not only academically sound and disciplined but they also organize various events. Welcome to the exciting world of Computer Science Engineering (CSE), a field that drives innovation, shapes the digital age, and empowers the technology-driven society we live in. CSE professionals are the architects of the digital realm, designing, developing, and optimizing the software and systems that power our world betterment of the society.

About the Programme

The integration of the Internet of Things (IoT) into industrial settings has ushered in a new era of data mining, revolutionizing the way businesses extract valuable insights from their operations. In industrial IoT, a multitude of interconnected devices and sensors generate a vast amount of real-time data, offering unprecedented visibility into various aspects of the manufacturing and production processes. These IoT-enabled devices, ranging from sensors on machinery to connected smart tools, continuously collect and transmit data, creating a rich source for data mining applications.

Objectives of the Programme

- To learn why Java is useful for the design of desktop and web applications.
- To learn how to implement object-oriented designs with Java.
- To identify Java language components and how they work together in applications.
- To design and program stand-alone Java applications.
- To learn how to design a graphical user interface (GUI) with Java Swing.
- To understand how to use Java APIs for program development.
- To learn how to extend Java classes with inheritance and dynamic binding.

Topics to be covered

- Introduction to IoT in Industrial Settings:
- Data Generation and Collection:
- Data Storage and Management:
- Data Mining Basics:
- Data Preprocessing for IoT Data:
- Predictive Analytics and Machine Learning:
- Security and Privacy Concerns:
- Integration with Industrial Systems:
- Case Studies and Best Practices:
- Future Trends and Innovations:
- Hands-on Practical Exercises:
- Ethical Considerations:

Department Of Computer Science And Engineering

Name of the program: Internet of Things for industrial data mining

STUDENTS LIST

S.No	Regd.No	Name of the Student	Year & branch	Signature
1	19GK1A0501	AVULAMANDA GRUHA LAKSHMI	I CSE	A.G. laksh
2	19GK1A0502	BOMMANAHAL SAI BHARGAV	I CSE	B. Sar
3	19GK1A0503	BOYA PRUDVIRAJU	I CSE	Prudviraju
4	19GK1A0504	CHANDALURI MOHAN KOTESWARA RAO	I CSE	C.Mohan
5	19GK1A0505	CHENNUPATI JAYANTH KUMAR	I CSE	Ch. Kumar
6	19GK1A0506	DAMARLA PRANAV KUMAR	I CSE	D. Sumanth

PROGRAM REPORT

Name of the Event: A Ten days Certification course on “ **INTERNET OF THINGS FOR INDUSTRIAL DATA MINING**”

Date:20/11/2019 -30/11/2019

Resource Person: DR.D.V V Phanikumar, Professor

Email ID:drphanikumard@gmail.com

Contact number:-9866317005

Name of the coordinator: Dr. Ch Venkata Ratnam

Department of computer science & Engineering

Number of students attended: 126

VENUE: Seminar Hall, PRIYADARSHINI INSTITUTE OF ENGINEERING AND MANAGEMENT

PRIYADARSHINI INSTITUTE OF ENGINEERING AND MANAGEMENT, Pulladigunta, organized certificate program on “INTERNET OF THINGS FOR INDUSTRIAL DATA MINING”for B.Tech students by the resource person Dr.D.V V Phani kumar, Professor .Emerging technologies are changing the way centuries-old industries operate. In the mining domain, adding sensors and internet connectivity to vehicles, machinery and people is increasing mine safety, enhancing productivity, and improving our use of global natural resources. The Industrial Internet Consortium Mining Task Group brings together end user organizations, product vendors, service providers and research organizations to create new IOT solutions,.Totally 126 students where participated in this training programming and their completion of the program they were able to understand the following objects and learning outcomes.

Objectives

- Describe what IOT is and how it works today
- Recognize the factors that contributed to the emergence of IOT
- Design and program IOT devices
- Use real IOT protocols for communication
- The Internet of Things (IOT) is aimed at enabling the interconnection and integration of the physical world and the cyber space.
- IOT covers a wide spectrum of applications, including the detailed real-time sensing of our environment and the embedding of connected intelligence into everyday objects

Outcomes:

- Secure the elements of an IOT device
- Design an IOT device to work with a Cloud Computing infrastructure.
- Transfer IOT data to the cloud and in between cloud providers
- Define the infrastructure for supporting IOT deployments
- Data Generation and Collection:
- Data Storage and Management:
- Data Mining Basics:
- Data Preprocessing for IOT Data:
- Predictive Analytics and Machine Learning:
- Security and Privacy Concerns:
- Integration with Industrial Systems.
- Case Studies and Best Practices.
- Future Trends and Innovation.
- Hands-on Practical Exercises.
- Ethical Considerations.

ABOUT THE INSTITUTE

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies.

The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

ABOUT THE DEPARTMENT

MBA:

A master of business administration (MBA) is a graduate degree that provides theoretical and practical training for business or investment management. An MBA is designed to help graduates gain a better understanding of general business management functions.

Many schools now offer specialty programs, like sports management, the entertainment business, or healthcare management. Executive MBA programs are available for experienced professionals who cannot commit to a full-time schedule. MBA programs may be full-time, part-time, online, or international, and each program usually has a varying degree of requirements for acceptance

ABOUT THE PROGRAMME

Human resource development is the organization complex process by which the employees of an organization are helped, in a continuous and planned way.

- Acquire or sharpen capabilities required to perform various functions associated with their present or expected future roles;
- Develop their general capabilities as individuals and discover and exploit their own inner potentials for their own and/or organizational development purposes; and
- Develop an organizational culture in which supervisor-subordinate relationships, teamwork and collaboration among sub-units are strong and contribute to the professional well being, motivation and pride of employees.

OBJECTIVES OF THE PROGRAMME

- improving business efficiency
- improving customer satisfaction
- expanding your customer base
- enhancing your sales and
- supporting teams

Venue: Seminar Hall, Priyadarshini institute of technology and management.

PRIYADHARSINI INSTITUTE OF TECHNOLOGY AND MANAGEMENT, Guntur,
Organized certificate program on “CUSTOMER RELATIONSHIP MANAGEMENT” for MBA students by the resource person: Mr.I.MANTRALAYA. CRM (customer relationship management) is the combination of practices, strategies and technologies that companies use to manage and analyze customer interactions and data throughout the customer lifecycle. The goal is to improve customer service relationships and assist with customer retention and drive sales growth.

Course Objective:

The customer relationship management (CRM) certification training trains you to understand the importance and application of the CRM system. It helps in noting the details and responding to the customer using a fact-based method.

Upon completing this Customer Relationship Management (CRM) Certification Training Course successfully, participants will be able to:

- Recognize why Customer Relationship Management (CRM) system is essential
- Know the best practices of CRM implementation
- Explain the value generated by using the customer relationship management tool

- Support teams and individuals to strategize and set key milestones for using the CRM
- Determine the benefits of using a CRM system
- Application of the CRM system
- Support the customer by using the CRM
- Apply the learnings to enhance customer service, sales and marketing
- Document the interactions with the customer to follow through

Learning outcomes

1. Able to understand and explain Introduction to customer relationship management
2. Understand relationships and identify organizational and customer relationship Management issues, plan and implement customer relationship management Projects, and develop, manage and use customer related databases.
3. Able to understand and explain Customer portfolio management, customer relationship and customer experience, create value for customers, manage customer life cycle: customer acquisition, customer retention and development, how to manage network for customer relationship management performance and investor and employee relations, suppliers and partners, and information technology for customer relationship management.
