## About the Institute

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies.

The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

## About the Department

### CIVIL:

Civil engineering is professional engineering discipline that deals with the design, construction, and maintenance of the physical and naturally built environment, including public works such as roads, bridges, canals, dams, airports, sewerage systems, pipelines, structural components of buildings, and railways. It is rightly considered the most versatile amongst all engineering branches. It is the branch with a lot of diversity right from surveying, geo-technology to structural engineering, environmental sciences to hydraulics, and transportation to hydrology. Civil engineering can be considered as the single largest core engineering branch.

## About the Programme

Primavera P6 is used for project scheduling, planning, tracking and reporting: it's a powerful enterprise project management tool that supports the delivery of complex, multi-faceted projects. Whether you are a small contractor required to produce plans using Primavera P6 Professional, or the prime contractor overseeing a major initiative, it's a tool that helps project teams deliver on time and on budget all around the world. Total 10 students were participated in this training program.

## Objectives of the Programme

The objectives of the program are

- To find out the start or end of a particular activity.
- To find out the project completion date.
- To adjust and determine the conflicts between subcontractors and the trades.
- To find out and predict the cash flow.
- To calculate the effect of changes.
- To resolve delay claims.
- To serve as a project control tool.

## Topics to be covered

Introduction to Primavera

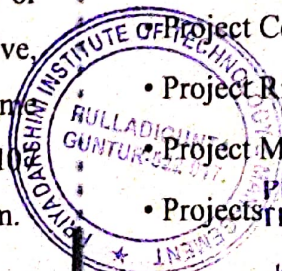

- Primavera P6 Architecture
- Portfolio program & project structure creation.
- Project Code and Calendars
- Project Time Management.
- Project Resource management.

• Project Cost Management

• Project Risk Management

• Project Monitoring & Control

• Project Resource Management

**PROGRAM REPORT**

<b>Name Of The Event</b>	: A Ten Days Certificate Program on “PRIMAVER”
<b>Date</b>	: 17-02-2022 to 28-02-2022.
<b>Resource Person</b>	: Mr. SK.NAGUR SHARIEF Assistant Professor Department of civil engineering Contact number: 9449877786 Email ID: nagursharief1994@gmail.com
<b>Name of The Coordinator</b>	: Mr. N. Prasanth Kumar assistant professor, Department of civil engineering
<b>Number of Student Attended</b>	: 107
<b>Venue</b>	: Computer lab, Priyadarshini institute of technology and management

Priyadarshini institute of technology and Management, Pullatigunta. Organized certificate program on PRIMAVER for B.Tech students by the resource person Mr. SK.NAGUR SHARIEF Assistant Professor Department of civil engineering .Primavera P6 is used for project scheduling, planning, tracking and reporting: it’s a powerful enterprise project management tool that supports the delivery of complex, multi-faceted projects. Whether you are a small contractor required to produce plans using Primavera P6 Professional, or the prime contractor overseeing a major initiative, it’s a tool that helps project teams deliver on time and on budget all around the world. Total 107 students were participated in this training program.

**OBJECTIVES OF THE PROGRAM**

The objectives of the program are

- To find out the start or end of a particular activity.
- To find out the project completion date.
- To adjust and determine the conflicts between subcontractors and the trades.
- To find out and predict the cash flow.
- To calculate the effect of changes.

- To resolve delay claims.
- To serve as a project control tool.

### **OUTCOME OF THE PROGRAM**

Outcome of the program are

- Organizational scarcity of the owner in handing over of construction site
- The directorate of the provincial municipality, the absence of detail drawings during the municipality application
- The absence of experience of the contractor in organizing concrete subcontractors, problems in material procurement
- Delay due to initial mobilization of persons and initial mobilization of persons.
- Very large rocks are available in excavation of foundation. It can affect the schedule of the project.
- Due to delay in excavation, water proofing and pile head treatment can start late as the planned date.

## ABOUT THE INSTITUTE

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies.

The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

## ABOUT THE DEPARTMENT

### EEE:

Department of Electrical and Electronic Engineering (EEE) – a hub of innovation and excellence in the realm of technology. Our department stands at the forefront of cutting-edge advancements, offering a dynamic learning environment where students are empowered to explore, create, and shape the future. With a dedicated faculty of experts, state-of-the-art laboratories, and a commitment to fostering both theoretical understanding and practical skills, we prepare our students to tackle real-world challenges and lead in industries spanning from electronics and power systems to communications and beyond. Join us in the journey of discovery and innovation in the fascinating world of Electrical and Electronic Engineering.

## ABOUT THE PROGRAMME

IOT is a simple way for the IOT wearables enable people to better understand their own health and allow physicians to remotely monitor patients. This technology also enables companies to track the health and safety of their employees, which is especially useful for workers employed in hazardous conditions.

- Understand internet of Things and its hardware and software components.
- Interface I/O devices, sensors & communication modules.
- Remotely monitor data and control devices.
- Design real time IOT based applications.

## OBJECTIVES OF THE PROGRAMME

- To learn and understand elements of IoT system.
- Acquire knowledge about various protocols of IoT.
- To learn and understand design principles and capabilities of IoT.

## TOPICS TO BE COVERED

- An Overview of Internet of things
- Internet of Things Technology
- M2M Communication, Examples of IOTs
- HTTP, HTTPS, FTP, Telnet
- Business Models for Business Processes in the Internet of Things
- IOT/M2M systems LAYERS AND designs standardizations
- Design Principles for the Web Connectivity for connected-Devices
- Message Communication protocols for Connected Devices
- Web Connectivity for connected-Devices.
- Data Acquiring
- Applications /Services /Business Processes
- Business Models for Business Processes in the Internet Of Things
- Data Collection
- Storage and Computing using a Cloud Platform for IOT/M2M Applications
- Sensor, Participatory Sensing

**PROGRAM REPORT**

DATE: 16/02/2022

**Name of the event:** A Ten days Certification Course On “INTERNET OF THINGS” By Priyadarshini Institute of Technology and Management. Pulladigunta.

**Date of Event:** 04-02-2022 TO 15-02-2022.

**Resource person:** Mrs. K.DEEPIKA Asst prof. Dept of EEE

**CONTACT NO:** 9949867844

**EMAIL:** karradeepika1@gmail.com

**Name of the coordinator:** SK. SALEEM

**Organized by:** DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING

**Number of students attended:** 74

**Venue:** seminar hall, Priyadarshini institute of technology and management

- **Priyadarshini institute of technology and management, Pulladigunta, Organized A Ten -Days certification course on “INTERNET OF THINGS” for B. tech and M. tech students by the resource person Mrs. K.DEEPIKA To make student to acquire the knowledge on types of Understand internet of Things and its hardware and software components. Interface I/O devices, sensors & communication modules. Remotely monitor data and control devices. Design real time IOT based applications**

**Objectives:**

- To learn and understand elements of IoT system.
- Acquire knowledge about various protocols of IoT.
- To learn and understand design principles and capabilities of IoT.

**Learning Outcomes:**

At the end of this course the student will be able to:

- An Overview of Internet of things
- Internet of Things Technology
- M2M Communication, Examples of IOTs
- HTTP, HTTPS, FTP, Telnet
- Business Models for Business Processes in the Internet of Things
- IOT/M2M systems LAYERS AND designs standardizations
- Design Principles for the Web Connectivity for connected-Devices.
- Message Communication protocols for Connected Devices
- Web Connectivity for connected-Devices.
- Data Acquiring,
- Applications /Services /Business Processes
- Business Models for Business Processes in the Internet Of Things,
- Data Collection
- Storage and Computing
- Using a Cloud Platform for IOT/M2M Applications/Services
- Sensor, Participatory Sensing
- Radio Frequency Identification.
- Wireless, Sensor Network Technology

## CIRCULAR

This is hereby to inform all the II, III&IV B.Tech students that the MECH department is organizing a two-Week certification course on “DESIGN FOR MANUFACTURE” by Mr.P.PRAVEEN Associate professor of MECH From 01-08-2022 and 13-08-2022. So all the students are here by informed to give the names on or before 29-07-2022 and utilize this opportunity by attending the classes.

Venue: Seminar Hall

Timing:10:00AM to 4:00PM

## About the Institute

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies. The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

## About the Department

### ME:

We train the next generation of 'whole-brain' mechanical engineers to lead with both creativity and analytical thinking. We pursue fundamental principles at the core of mechanical sciences and their interface with other scientific disciplines, and we generate new products, processes, and systems that create lasting societal impact.

To be truly innovative, mechanical engineers of the future need to understand the basics of mechanics, manufacturing, and systems while integrating aspects of other disciplines. With its collaborations across departments and institutions, the Department of Mechanical Engineering educates the engineers of the future while conducting leading-edge research in Advanced Manufacturing, AI and Design, Bio systems and Health, Computational Engineering, Energy and Sustainability, Micro/nano engineering, and Robotics and Autonomy.

## About the Programme

- Design for Manufacturing or Design for Manufacturability (DFM) involves optimizing parts and component design to ease manufacturing and assembly.
- It is an approach to product design that aims to minimize manufacturing costs while maintaining or improving product quality, functionality, and reliability.
- Due to years of manufacturing experience, most seasoned engineers build some design for manufacturing work into earlier parts of the product development process.

## Objectives of the Programme

The objective of the courses is to develop in-depth knowledge for the following:

- Design for Manufacture, Selection of Manufacturing processes, Process capabilities, shape attribute Prepare operation and Operation sequence for the Engineering Design features, Screw threads, Ground surfaces, holes.
- Problems Casting Considerations Pattern, Mould, parting line, cast holes, machined holes.
- Die casting alloys, cycle, machines, dies, finishing, Assembly techniques, and Design principles.
- Assembly of parts having concentric cylinders, Control of feature location by true position

## Topics to be covered

Selection of materials for processes

- Computer based primary process/material selection
- Engineering Design features
- Dimensioning, General Tolerance, Assembly limits, achieving larger machining tolerances
- Component design
- Identifying parting line, special sand cores, designing to obviate sand cores.
- Design for Injection Molding
- Injection molding materials, Molding cycle, Systems
- Insert molding, Design guidelines
- Design for Die casting and Powder metal Processing
- Die casting alloys, cycle, machines, dies, finishing, Assembly techniques, and Design principles
- Symmetrical dimensioning concept of dimensioning, Straightness, concentricity, Run-out, Location Tolerance

**Report on certificate program on “DESIGN FOR MANUFACTURE”**

**PROGRAM REPORT**

Name Of The Event : A Ten days certificate program on “Design for Manufacture”

Date : 01-08-2022 and 13-08-2022.

Resource Person : **Mr.P.PRAVEEN** Assistant Professor,  
**Department of Mechanical engineering**  
Contact number: 9553532408  
Email ID: p.praveen1007@gmail.com

Name of The Coordinator : **MR. K.SAMBAIAH**, associate professor,  
**Department of Mechanical engineering**

Number of Student Attended : 100

Venue : Seminar Hall, Priyadarshini institute of technology and  
Management.

Priyadarshini institute of technology and Management, Pulladigunta. Organized certificate program on **DESIGN FOR MANUFACTURE** for B.Tech students by the resource person **Mr. P.PRAVEEN**. DFMA is a combination of two methodologies, Design for Manufacturing (DFM) and Design for Assembly (DFA). This combination enables a product design to be efficiently manufactured and easily assembled with minimum labor cost. Through the use of DFM/A, a company can prevent, detect, quantify and eliminate waste and manufacturing inefficiency within a product design. DFM/A is a break from tradition. With DFM/A, the Design and Manufacturing Engineers work together as a team in developing the product’s manufacturing and assembly methods simultaneously with the design. Conventionally, the design engineer designs the product then hands the drawings to manufacturing who then determine the manufacturing and assembly processes. Many engineers automatically separate the two into DFM and DFA since they have been defined separately for several years. For effective application of DFM/A the two activities must work in unison to gain the greatest benefit.

## **OBJECTIVES OF THE PROGRAM**

- Design for Manufacture, Selection of Manufacturing processes, Process capabilities, shape attribute Prepare operation and Operation sequence for the Engineering Design features, Screw threads, Ground surfaces, holes.
- Problems Casting Considerations Pattern, Mould, parting line, cast holes, machined holes.
- Die casting alloys, cycle, machines, dies, finishing, Assembly techniques, and Design principles.
- Assembly of parts having concentric cylinders, Control of feature location by true position

## **OUTCOME OF THE PROGRAM**

- Students will be able to complete knowledge about manufacturing systems
- Students able to know the manufacturing work into earlier parts of the product
- Students able to know about the product development process.
- Students will know the manufacturing and assembly.
- Students will learn design's functionality.

**PRIYADARSHINI INSTITUTE OF TECHNOLOGY AND MANAGEMENT**

## About the Institute

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies. The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

## About the Department

### ECE:

The department of Electronic and Communication Engineering is offering the undergraduate course (B.TECH) in Electronic and Communication Engineering and one post graduate course (M.TECH) in VLSI Design. The B. Tech. program was started in 2007. ECE department has more than 20 qualified and experienced faculty.

The department organized several symposiums, guest lectures, and workshops. They were encouraged to attend international and national conferences and to present their research work. They usually publish their research work in reputed international and national journals. The department is also encouraging all faculty members and students to join professional bodies and participate in activities. And to engage modern education aids, laboratories, and competent faculty to ensure effective teaching and learning processes to meet the ever-growing and changing industrial and business environments. To continuously challenge the young minds with ideas to carry out innovative research through interaction with research organizations and industries.

## About the Programme

- Basics of Soft computing techniques
- Implement, evaluate and compare solutions by various soft computing approaches
- Problem solving using fuzzy logic
- soft computing in various application

## Objectives of the Programme

- Develop intelligent systems leveraging the paradigm of soft computing techniques
- Implement, evaluate and compare solutions by various soft computing approaches for finding the optimal solutions.
- Recognize the feasibility of applying a soft computing methodology for a particular problems
- Design the methodology to solve optimization problems using fuzzy logic, genetic algorithms and neural networks
- Design hybrid system to revise the principles of soft computing in various application

## Topics to be covered

- Introduction to soft computing
- Evolutionary programming
- Artificial Neural Networks
- Second generation neural networks
- Hamming neural network
- Introduction to fuzzy logic
- Natural language and fuzzy interpretations
- Genetic Algorithms

**PROGRAM REPORT**

Name of the Event: A 10-days certificate program on “Soft Computing Techniques”.

Date: 24-01-2022 to 04-02-2022.

RESOURCE PERSON: Mrs. R. MADHURI DEVI, HOD CSE.

Contact number: 9490775721

Mail id: madhuridevichandu@gmail.com

Name of the co-ordinator: Mr. P. Sanjay Krishnamal, Associate Professor, Dept. of ECE

No of Students: 59

Venue: Seminar Hall, Priyadarshini institute of technology and management.

PRIYADHARSINI INSTITUTE OF TECHNOLOGY AND MANAGEMENT. Guntur. Organized certificate program on “Soft Computing Techniques” for B. Tech. and M. Tech. Students by the resource person R. Madhuri Devi. Develop intelligent systems leveraging the paradigm of soft computing techniques. Implement, evaluate and compare solutions by various soft computing approaches for finding the optimal solutions. Recognize the feasibility of applying a soft computing methodology for a particular problem Design the methodology to solve optimization problems using fuzzy logic, genetic algorithms and neural networks. Design hybrid system to revise the principles of soft computing in various applications. Totally 59 students were participated in this training program and their completion of the program they were able to understand the following objectives and learning outcomes.

### Course objectives:

- Develop intelligent systems leveraging the paradigm of soft computing techniques.
- Implement, evaluate and compare solutions by various soft computing approaches for finding the optimal solutions.
- Recognize the feasibility of applying a soft computing methodology for a particular problem
- Design the methodology to solve optimization problems using fuzzy logic, genetic algorithms and neural networks.
- Design hybrid system to revise the principles of soft computing in various application

### Learning outcomes:

At the end of this course the student can able to:

- Understand the Development of intelligent systems leveraging the paradigm of soft computing techniques.
- Understand the Implementation, evaluation and comparing solutions by various soft computing approaches for finding the optimal solutions.
- How to Recognize the feasibility of applying a soft computing methodology for a particular problem
- How to design the methodology to solve optimization problems using fuzzy logic, genetic algorithms and neural networks.
- How to design hybrid system to revise the principles of soft computing in various applications.

## About the Institute

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies.

The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

## About the Department

### CSE:

The Department of Computer Science and Engineering, established in 2008, is one of the most dynamic departments of Priyadarshini Institute Of Technology and management. I am really elated to tell that the department stands on the strength of experienced and well qualified faculty who are very dedicated to teaching and also involved in up-gradation of knowledge. Their research experience will help to cultivate the future of our students. With great demand in industry and great placement opportunities, the department stands tall and proud. Our students are not only academically sound and disciplined but they also organize various events. Welcome to the exciting world of Computer Science Engineering (CSE), a field that drives innovation, shapes the digital age, and empowers the technology-driven society we live in. CSE professionals are the architects of the digital realm, designing, developing, and optimizing the software and systems that power our world betterment of the society.

## About the Programme

Computer networking and system security, where the interplay between interconnected devices meets the imperative need for safeguarding digital landscapes. In today's interconnected world, computer networks serve as the backbone of communication and information exchange. This intricate web of connections facilitates the seamless flow of data across devices, but it also demands robust security measures to shield against the myriad threats looming in the digital domain.

## Objectives of the Programme

- Establish Secure Communication:
- Network Reliability and Availability:
- Protect Against Unauthorized Access:
- Data Integrity and Confidentiality:
- Vulnerability Management:
- Intrusion Detection and Prevention:
- User Education and Awareness:
- Secure System Configuration:
- Incident Response and Recovery.
- Compliance with Regulations

## Topics to be covered

- Introduction to Computer Networks.
- Network Architecture and Design.
- Network Protocols and Standards.
- Wireless Networking.
- Network Security Fundamentals.
- Access Control and Authentication.
- Security of the OSI Model.
- Vulnerability Assessment and Penetration Testing.
- Firewall Technologies.
- Intrusion Detection and Prevention Systems (IDPS).
- Virtualization and Cloud Security.
- Incident Response and Forensics.
- Secure System Configuration.
- Network Monitoring and Analysis.

## PROGRAM REPORT

**Name of the Event:** A Ten days Certification course on “WEB DEVELOPMENT USING PYTHON”

**Date:** 25-10-2021 TO 04-11-2021

**Resource Person:** Mr.P.Bhagavan Das, Associate Professor

Contact number: 8142315135

Mail id:pbhagavandas23@gmail.com

**Name of the coordinator:** Dr.K.G.S.Venkatesan, Professor

Department of computer science & Engineering

**Number of students attended:** 64

**VENUE:** Seminar Hall, PRIYADARSHINI INSTITUTE OF ENGINEERING AND MANAGEMENT  
PRIYADARSHINI INSTITUTE OF ENGINEERING AND MANAGEMENT, Pulladigunta, organized certificate program on “WEB DEVELOPMENT USING PYTHON “for B.Tech students by the resource person Mr.P.Bhagavan Das, Associate Professor. Web Application Development with Python certification training equips learners with essential skills to build robust and dynamic web applications. This course covers a broad range of topics, including Python programming fundamentals, Flask or Django frameworks, HTML and CSS basics, database interaction, and JavaScript. Students also learn about application security, integration mechanisms, and deployment strategies. This comprehensive training enables programmers to proficiently develop, implement, and manage Python-based web applications. Totally 64 students where participated in this training programming and their completion of the program they were able to understand the following objects and learning outcomes.

## Objectives

- The learning objectives of a Web Application Development with Python course are to equip students with the foundational knowledge and practical skills in Python and its applications in web development.
- Students will learn about client-server architecture, how to create dynamic websites using Python and frameworks like Django and Flask.
- They will understand database interactions, APIs and user authentication. They will also develop competency in debugging, testing, and deploying web applications.
- The objective is to empower students to develop sophisticated, full-stack web applications in Python, fostering a deep understanding of both front-end and back-end web development processes

## Learning Outcomes:

- Installing SQLite, SQLite Install On Mac, Creating Database And Table, Inserting Data, Selecting Data, DB Programming
- intro To Simple HTTP Server, More With Simple HTTP And Base HTTP Server
- Database Web Programming
- HTML Database Data
- Input Database Data
- Update Database Data
- Update Database Data, Django API, Django Admin App, Django Views, Django Templates.

## ABOUT THE INSTITUTE

Established in 2008, Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier Institute located in Andhra Pradesh. Institute offers Degree and Diploma courses including 7 UG and 5 PG courses. These programs are offered in Full Time mode. Priyadarshini Institute of Technology and Management (PITM, Guntur) is a premier institute for B.Tech, M.Tech, MBA courses. Candidate can pursue in multiple range of courses like B.Tech, M.Tech, MBA with the stream of Engineering, Business & Management Studies.

The Mission of Priyadarshini is to develop high quality technical education and personnel with a sound footing on basic engineering principles, technical and managerial skills, innovative research capabilities, and exemplary professional conduct to lead and to use technology for the progress of mankind, adapting themselves to changing technological environment with the highest ethical values.

## ABOUT THE DEPARTMENT

### CSE:

The Department of Computer Science and Engineering, established in 2008, is one of the most dynamic departments of Priyadarshini Institute Of Technology and management. I am really elated to tell that the department stands on the strength of experienced and well qualified faculty who are very dedicated to teaching and also involved in up-gradation of knowledge. Their research experience will help to cultivate the future of our students. With great demand in industry and great placement opportunities, the department stands tall and proud. Our students are not only academically sound and disciplined but they also organize various events. Welcome to the exciting world of Computer Science Engineering (CSE), a field that drives innovation, shapes the digital age, and empowers the technology-driven society we live in. CSE professionals are the architects of the digital realm, designing, developing, and optimizing the software and systems that power our world betterment of the society.

## ABOUT THE PROGRAMME

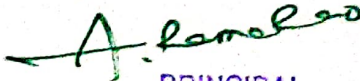

Cyber security operations are a critical component of any organization's efforts to protect its digital assets and sensitive information in an increasingly interconnected and digital world. The landscape of cyber threats is dynamic and ever-evolving, ranging from sophisticated attacks by malicious actors to accidental vulnerabilities that could expose an organization's data to unauthorized access

## OBJECTIVES OF THE PROGRAMME

- Protecting Information Assets:
- Ensuring Confidentiality, Integrity, and Availability (CIA)
- Detecting and Responding to Cyber Threats
- Preventing Unauthorized Access
- Network Security, Endpoint Security
- Security Awareness and Training
- Security Compliance
- Continuous Monitoring and Improvement
- Data Privacy, Compliance with Privacy Regulations

## TOPICS TO BE COVERED

- SQL Injection
- Penetration Testing
- Programming Skills
- Security and Risk Management
- Cryptography Skills

### PROGRAM REPORT

**Name of the Event:** A Ten days Certification course on " "Cyber Security Operations"

**Date:** 08-11-2021 to 18-11-2021

**Resource Person :** Mr.K.Kiran kumar ,Associate Professor

Email ID:jennyjony77@gmail.com

Contact number:- 9494763240

**Name of the coordinator:** Mr. M.MURALI, Assistant Professor

Department of computer science & Engineering

**Number of students attended:** 41

**VENUE:** Lab, PRIYADARSHINI INSTITUTE OF ENGINEERING AND MANAGEMENT

PRIYADARSHINI INSTITUTE OF ENGINEERING AND MANAGEMENT, Pulladigunta, organized certificate program on "Cyber Security Operations" for Btech students by the resource person K Raghavendra Swamy, Associate Professor. Cyber security experts monitor and prevent unauthorized access to an organization's network. Cyber security experts implement various strategies to protect the systems against cyber threats, including robust firewalls, encryption, secure passwords, and solid cyber frameworks. Cyber security experts are the employees of an organization who ensure that a company's data is never compromised and no malicious breach ever takes place. Totally 41 students where participated in this training programming and their completion of the program they were able to understand the following objects and learning outcomes.

**Objectives :**

- Protecting Information Assets:
- Ensuring Confidentiality, Integrity, and Availability (CIA)
- Detecting and Responding to Cyber Threats
- Preventing Unauthorized Access
- Network Security, Endpoint Security
- Security Awareness and Training
- Security Compliance
- Continuous Monitoring and Improvement
- Data Privacy, Compliance with Privacy Regulations

**Learning Outcomes:**

- Develop a deeper understanding and familiarity with various types of cyber attacks, cyber crimes, vulnerabilities and remedies thereto.
- Analyze and evaluate existing legal framework and laws on cyber security.
- Analyze and evaluate the digital payment system security and remedial measures against digital payment frauds.
- SQL Injection
- Penetration Testing
- Programming Skills
- Security and Risk Management
- Cryptography Skills
- Programming Skills

## About the Department

### MBA:

A master of business administration (MBA) is a graduate degree that provides theoretical and practical training for business or investment management. An MBA is designed to help graduates gain a better understanding of general business management functions.

Many schools now offer specialty programs, like sports management, the entertainment business, or healthcare management. Executive MBA programs are available for experienced professionals who cannot commit to a full-time schedule. MBA programs may be full-time, part-time, online, or international, and each program usually has a varying degree of requirements for acceptance

## About the Programme

Business communication is the process of sharing information between people within the workplace and outside a company.

The importance of business communication also lies in:

- Presenting options/new business ideas
- Making plans and proposals (business writing)
- Executing decisions
- Reaching agreements
- Sending and fulfilling orders
- Successful selling
- Effective meetings
- Providing feedback to employees and customers

## Objectives of the Programme

The objectives of business communication are manifold, including:

- Facilitating decision-making: Effective communication helps employees, managers and other stakeholders share information and make informed decisions.
- Building and maintaining relationships: Another key point is good communication. It helps to build and maintain positive relationships with customers, suppliers and other stakeholders.
- Achieving organizational goals: Effective communication is essential for coordinating activities and achieving common goals within an organization.
- Promoting understanding: Business communication helps to promote understanding and clarity among employees and stakeholders, reducing confusion and misunderstandings.

## Topics to be covered

- Communication
- Types Of Communication
- Types Of Listening
- Essential Of Good Listening
- Organizational Communication
- Interpersonal And Intrapersonal Communications
- Nonverbal Communication
- Written Communication
- Business Correspondence
- Presentation Skills
- Assertiveness

CO-ORDINATOR

NOD-MBA

Date: 03-04-2022

**PROGRAM REPORT**

**Name of the Event:** A ten days Certificate Program on BUSINESS COMMUNICATION SKILLS

**Date** : 21-03-22 to 01-04-2022.

**RESOURCE PERSON: Name:** Mr. Y.RAJ KUMAR

**Designation:** Associate professor,

**Department:** MBA

**Address:** PITM, Guntur

**Email ID:** -yendluriRajkumar@gmail.com

**Contact number:** 9398049712

**Name of the co-ordinator:** Mrs. UDAYALAKSHMI ADAPA, Associate professor, Dept of MBA

**No of Students:** 70

**Venue:** Seminar Hall, Priyadarshini institute of technology and management.

**PRIYADHARSINI INSTITUTE OF TECHNOLOGY AND MANAGEMENT,** Guntur.

Organized certificate program on “BUSINESS COMMUNICATION SKILLS” for I-MBA& I-CSE & I-AI&DS students by the resource person: Mr. Y.RAJ KUMAR. Business communication is the sharing of information between people within an organization. It can also be defined as relaying of information within a business. Business communication is performed by relaying information to people throughout the organization in many different ways.

**Objectives of the program:**

The objectives of business communication are manifold, including:

- **Facilitating decision-making:** Effective communication helps employees, managers and other stakeholders share information and make informed decisions.
  - **Building and maintaining relationships:** Another key point is good communication. It helps to build and maintain positive relationships with customers, suppliers and other stakeholders.
  - **Achieving organizational goals:** Effective communication is essential for coordinating activities and achieving common goals within an organization.
-

# **PRIYADARSHINI INSTITUTE OF TECHNOLOGY AND MANAGEMENT**
