About the FDP

Python is a general-purpose programming language that is becoming ever more popular for data science. Companies worldwide are using Python to harvest insights from their data and gain a competitive edge. Unlike other Python tutorials, this course focuses on Python specifically for data science. . Companies worldwide are using Python to harvest insights from their data and gain a competitive edge. Unlike other Python tutorials, this course focuses on Python specifically for data science.

Program Outcome:

- Design real life situational problems and think creatively about solutions of them.
- Apply a solution clearly and accurately in a program using Python.
- Apply the best features of mathematics, engineering and natural sciences to program real life problems

About the FDP:

The Department of Electronics and Communication Engineering, NIT Puducherry, is organizing an Online FDP on Advanced Communication System Design & Simulations from August 17 to 21, 2020. The FDP course will cover the recent trends in broad research fields namely RF front-end antenna, core concepts of the wireless radio, and optical communications with major emphasis in terms of design and simulation perspective.

National Institute of Technology Puducherry, Karaikal (NITPY), is an autonomous public engineering institute nestled in the scenes of Karaikal, a coastal enclave in the basin of river Kaveri in the Union Territory of Puducherry. It is one of the 31 National Institutes of Technology of India and is declared as an Institute of National Importance by Government of India under NIT Act, 2007.

Program Outcome:

To apply the 5G/6G technology in the research areas in the advanced wireless communication technology. To utilize Omnet++ and MATLAB tool to implement research ideas in 5G/6G. To understand roadmap for beyond 5G/6G.

Report of Training Session for Non Teaching faculty on "Fire Safety"

The following pertains to any unexpected emergency alarm requiring evacuation from the building. First and foremost is protecting your life. Remain calm and evacuate. Follow exit signs and use stairs. Proceed to the short-term assembly area and remain there until emergency responders indicate that the building is safe for reentry. It is encouraged that occupants utilize the stairs (when possible) to avoid overloading an elevator. Faculty, staff and students who are not capable of complying with the evacuation procedures, or who may have special needs or recognized disabilities, should contact the Department of Environmental Health and Safety for development of an Individual Evacuation Plan. Copies of these plans are maintained with Pitt Police for use by emergency responders. Follow exit signs and use stairs. Proceed to the short-term assembly area and remain there until emergency responders indicate that the building is safe for reentry. Upon reentry, encouraged that occupant utilize the stairs (when possible) to avoid overloading an elevator. Faculty, staff and students who are not capable of complying with the evacuation procedures, or who may have special needs or recognized disabilities, should contact the Department of Environmental Health and Safety for development of an Individual Evacuation Plan.
