CIRCULAR

The Department of Science & Humanities is organizing the ONE WEEK Faculty Development Program(FDP) on “CODING THEORY” from 02 JULY to 07 JULY 2018 the FDP delivered by eminent speakers Hence all the faculty members register and attend the faculty development program without fail.

VENUE: Seminar Hall

Note: The program schedule and Brochure are enclosed

Co-Ordinator: K.Srinivasarao

PROGRAM REPORT :

Date:11/07/2018

Name of the Program: A ONE WEEK FDP on CODING THEORY

Organized by: Department of Science & Humanities

Date: 02/07/2018 to 07/07/2018

Resource Person: K.Prabhakar Babu

Asst Professor

Priyadarshini Institute of Technology and Management,Guntur

prabhakarbabu73@gmail.com

Objective:

Goals of Coding Theory(CT) are to develop systems and methods that allow to detect/correct errors caused when information is transmitted through noisy channels. Coding Theory problems are therefore among the very basic and most frequent problems of storage and transmission of information.

PRINCIPAL
PRIYADARSHINI INSTITUTE OF
TECHNOLOGY & MANAGEMENT
5th Mile, Pulladigunta,
KORNEPADU (Vil), Vatticherukuru (M)
GUNTUR - 522 017

About the FDP

It analyzes the following three properties of a code – mainly: **Code word length**, Total number of valid code words, The minimum distance between two valid code words, using mainly the Hamming distance, sometimes also other distances like the Lee distance. Cell phones also use coding techniques to correct for the fading and noise of high frequency radio transmission. Data modems, telephone transmissions, and the NASA Deep Space Network all employ channel coding techniques to get the bits through, for example the turbo code and LDPC codes.

Program Outcome:

Coding Theory results allow to create reliable systems out of unreliable systems to store and/or to transmit information. Coding Theory methods are often elegant applications of very basic concepts and methods of (abstract) algebra.

Total no.of Participants: 33

PROGRAM REPORT

Date:23/04/2019

Name of the Program: A ONE WEEK FDP on CONTROL SYSTEMS

Organized by: Department of Electrical and Electronics Engineering

Dates: 15/04/2019 to 20/04/2019

Resource Person: G.Ravi Kumar

- Asso Professor

Priyadarsini Institute of Sciences, Tenali

ravikumar34@gmail.com

Objective:

To ensure that activities are performed in accordance with the predetermined standard that is to see that activity is achieving the desired result. To know what is happening or what has actually happened in the organisation. A control system manages, commands, directs, or regulates the behavior of other devices or systems using control loops.

About the FDP

A control system is a set of mechanical or electronic devices that regulates other devices or systems by way of control loops. Typically, control systems are computerized. Control systems are central part of production and distribution in many industries. Automation technology plays a big role in these systems.

Program Outcome:

Categorize different types of system and identify a set of algebraic equations to represent and model a complicated system into a more simplified form. A control system manages, commands, directs, or regulates the behavior of other devices or systems using control loops.

Report of Training Session for Non Teaching faculty on "Lab Safety"

Please read these Safety Guidelines, Safety is a priority at Prince Sattam Bin Abdulaziz University. While it may seem unlikely that an accident could happen to you, you should know the accident rate in universities is 10 to 100 times greater than in the chemical industry. To help Material Safety Data Sheets (MSDS) are posted in a laboratory binder and guidelines. Pay close attention to this information our goals are: 1. To avoid accidents in the lab, and 2. To respond promptly and appropriately should an accident occur. Safety depends on you! It is your responsibility to follow the instructions in the lab manual and any additional guidelines provided by your instructor. It is also your responsibility to be familiar with the location and operation of safety.

safety notes are included in the lab manual. In addition, any relevant Material Safety Data Sheets (MSDS) are posted in a laboratory binder and guidelines. Pay close attention to this information our goals are: 1. To avoid accidents in the lab, and, To respond promptly and appropriately should an accident occur. Safety depends on you! It is your responsibility to follow the instructions in the lab manual and any additional guidelines provided by your instructor To help prevent accidents, safety notes are included in the lab manual. In addition, any relevant Material Safety Data Sheets (MSDS) are posted in a laboratory binder and guidelines. Pay close attention to this information our goals are: 1.
