REPUBLIC DAY CELEBRATION

Organized by: Priyadarshini institute of technology and management

Venue: College ground

Date: 26-01-2023

A REPORT ON REPUBLIC DAY CELEBRATION

Republic Day marks an important event in India's history. It commemorates the enactment of the Constitution of India which came into effect on January 26, 1950, and made the nation into a republic. It is a well-known fact that India achieved independence from the British on August 15, 1947 after the long-drawn Indian independence movement. However, even after independence, our country had to rely on the modified colonial Government of India Act 1935 as we didn't have a permanent constitution, yet. On 29 August 1947, a resolution was created for the appointment of the Drafting Committee for drafting the official Constitution with Dr B R Ambedkar as chairman. The Constitution of India was adopted on November 26, 1949 but came into effect on January 26. Every year Republic Day is celebrated in India on 26th January with zeal and enthusiasm.

The main attraction of the day is the R-day parade which begins at Rajpath, Delhi and ends at India Gate. It consists of beautiful as well as informative tableaux by different States exhibiting their culture and heritage. The parade also honours the brave Indian Army, Navy, Air Force, police and paramilitary forces for protecting our nation. The military forces often display the latest weaponry, aircrafts and gadgets during the parade. The celebration usually ends with impressive flypasts by the Indian Forces. Spectacular parades at Janpath, New Delhi, consisting the Indian National Army and national flag hoisting in various parts of the country are common practices followed on this day

After attaining independence from the British rule, the new constitution was enrolled by the drafting committee under the deanship of Dr BR Ambedkar. The Indian Constitution came into effect on 26 January 1950, which declared India's occurrence as an independent republic. January 26th was chosen as the date because on this day in 1930, the Indian National Congress revealed Purna Swaraj, the declaration of India's independence from the colonial rule. Republic Day signifies the right spirit of Independent and individual India. The important symbols of the festival include the exhibition of military equipment, the national flag and military equipment. Awards are presented to the brave soldiers in the form of Paramvir Chakra, Ashok Chakra, and Vir Chakra. Even children and general citizens who have displayed courage in times of adversity are honoured with awards.

A REPORT ON ENGINEER'S DAY CELEBRATION

India observes Engineer's Day on September 15 as a mark of remembrance and tribute to Mokshagundam Visvesvaraya, who is considered as one of the greatest engineers in the country. Vishveshvarya is also known as the father of Indian Engineering because of his enormous contributions and innovations in the field of engineering and development of society. India has been celebrating Visvesvaraya's birth anniversary as Engineer's Day since 1968. He went on to become India's most prolific civil engineer, dam builder, economist and statesman. He was one of the most prominent builders of India in the 20th century. When Visvesvaraya was the Diwan of Mysore from 1912 to 1918, he transformed the state into what was then known as a 'model state'. For his numerous industrial, economic and social projects, he was called "Father of Modern Mysore"

Visvesvaraya was also the chief engineer responsible for the construction of the Krishna Raja Sagara Dam in Mysore, the biggest in Asia at that time. In 1909, when the city of Hyderabad was in danger of getting flooded, Visvesvaraya was appointed as special consultant engineer to make the city flood-proof. His inventive engineering work saved the Visakhapatnam port from sea erosion

Visvesvaraya is credited with inventing the block system, automated doors that close the water overflows. He designed and patented the floodgates which were first installed at the Khadakwasla reservoir in Pune in 1903. Visvesvaraya established Government Engineering College in 1917 in Bengaluru which was later named University Visvesvaraya College of Engineering in his honour. Due to his outstanding contribution to the building of India, the government conferred 'Bharat Ratna' on him in 1955. He was also awarded the British knighthood by King George V, which put the honorific 'sir' before his name.

We at Priyadarshini Institute Of Technology And Management habituated to celebrate the birth celebrations of Sir Sri Mokshagundam Visvesvaraya as a token lo gratitude to the legendry Engineer of the country.

REPUBLIC DAY CELEBRATION

Organized by: Priyadarshini institute of technology and management

Venue: College ground

Date: 26-01-2022

A REPORT ON REPUBLIC DAY CELEBRATION

Republic Day marks an important event in India's history. It commemorates the enactment of the Constitution of India which came into effect on January 26, 1950, and made the nation into a republic. It is a well-known fact that India achieved independence from the British on August 15, 1947 after the long-drawn Indian independence movement. However, even after independence, our country had to rely on the modified colonial Government of India Act 1935 as we didn't have a permanent constitution, yet. On 29 August 1947, a resolution was created for the appointment of the Drafting Committee for drafting the official Constitution with Dr B R Ambedkar as chairman. The Constitution of India was adopted on November 26, 1949 but came into effect on January 26. Every year Republic Day is celebrated in India on 26th January with zeal and enthusiasm.

The main attraction of the day is the R-day parade which begins at Rajpath, Delhi and ends at India Gate. It consists of beautiful as well as informative tableaux by different States exhibiting their culture and heritage. The parade also honours the brave Indian Army, Navy, Air Force, police and paramilitary forces for protecting our nation. The military forces often display the latest weaponry, aircrafts and gadgets during the parade. The celebration usually ends with impressive flypasts by the Indian Forces. Spectacular parades at Janpath, New Delhi, consisting the Indian National Army and national flag hoisting in various parts of the country are common practices followed on this day

After attaining independence from the British rule, the new constitution was enrolled by the drafting committee under the deanship of Dr BR Ambedkar. The Indian Constitution came into effect on 26 January 1950, which declared India's occurrence as an independent republic. January 26th was chosen as the date because on this day in 1930, the Indian National Congress revealed Purna Swaraj, the declaration of India's independence from the colonial rule. Republic Day signifies the right spirit of Independent and individual India. The important symbols of the festival include the exhibition of military equipment, the national flag and military equipment. Awards are presented to the brave soldiers in the form of Paramvir Chakra, Ashok Chakra, and Vir Chakra. Even children and general citizens who have displayed courage in times of adversity are honoured with awards.

A REPORT ON ENGINEER'S DAY CELEBRATION

India observes Engineer's Day on September 15 as a mark of remembrance and tribute to Mokshagundam Visvesvaraya, who is considered as one of the greatest engineers in the country. Vishveshvaraya is also known as the father of Indian Engineering because of his enormous contributions and innovations in the field of engineering and development of society. India has been celebrating Visvesvaraya's birth anniversary as Engineer's Day since 1968. He went on to become India's most prolific civil engineer, dam builder, economist and statesman. He was one of the most prominent builders of India in the 20th century. When Visvesvaraya was the Diwan of Mysore from 1912 to 1918, he transformed the state into what was then known as a 'model state'. For his numerous industrial, economic and social projects, he was called "Father of Modern Mysore"

Visvesvaraya was also the chief engineer responsible for the construction of the Krishna Raja Sagara Dam in Mysore, the biggest in Asia at that time. In 1909, when the city of Hyderabad was in danger of getting flooded, Visvesvaraya was appointed as special consultant engineer to make the city flood-proof. His inventive engineering work saved the Visakhapatnam port from sea erosion

Visvesvaraya is credited with inventing the block system, automated doors that close the water overflows. He designed and patented the floodgates which were first installed at the Khadakwasla reservoir in Pune in 1903. Visvesvaraya established Government Engineering College in 1917 in Bengaluru which was later named University Visvesvaraya College of Engineering in his honour. Due to his outstanding contribution to the building of India, the government conferred 'Bharat Ratna' on him in 1955. He was also awarded the British knighthood by King George V, which put the honorific 'sir' before his name.

We at Priyadarshini Institute Of Technology And Management habituated to celebrate the birth celebrations of Sir Sri Mokshagundam Visvesvaraya as a token of gratitude to the legendary Engineer of the country.

Sir M Visvesvaraya was a divine gift to India. He knew his subject, was competent to do great designs of civil engineering structures, and executed what others might have avoided as risks. Present engineering professionals and researchers should follow his example and gain knowledge to minimize risks while launching mega projects.

Our Principal Dr.A.Rama Rao garu instructed all the faculty members to assemble for the celebrations of Sir M Visvesvaraya. All the heads of the departments along with their staff members assembled in the seminar hall. The photo of Sir M Visvesvaraya is respected with garland by the principal sir. Principal sir addressed the gathering with beautiful words of Sir Mokshagundam Visvesvraya garu. He remembered the importance of an engineer to the society. Engineer is the key position in building the nation in all areas. As a engineering college principal, he wish every engineer should have some social responsibility towards the society for the betterment. Every engineer need to identify the problems in the society and try to find the solutions for the problems. Heads of various departments spoke on this occasion and remembered the importance of engineers to the society. They paid tribute to the India's most respected engineer Sir Mokshagundam Visvesvraya garu.

REPUBLIC DAY CELEBRATION

Organized by: Priyadarshini institute of technology and management

Venue: Seminar hall

Date: 26-01-2020

A REPORT ON REPUBLIC DAY CELEBRATION

Republic Day marks an important event in India's history. It commemorates the enactment of the Constitution of India which came into effect on January 26, 1950, and made the nation into a republic. It is a well-known fact that India achieved independence from the British on August 15, 1947 after the long-drawn Indian independence movement. However, even after independence, our country had to rely on the modified colonial Government of India Act 1935 as we didn't have a permanent constitution, yet. On 29 August 1947, a resolution was created for the appointment of the Drafting Committee for drafting the official Constitution with Dr B R Ambedkar as chairman. The Constitution of India was adopted on November 26, 1949 but came into effect on January 26. Every year Republic Day is celebrated in India on 26th January with zeal and enthusiasm.

The main attraction of the day is the R-day parade which begins at Rajpath, Delhi and ends at India Gate. It consists of beautiful as well as informative tableaux by different States exhibiting their culture and heritage. The parade also honours the brave Indian Army, Navy, Air Force, police and paramilitary forces for protecting our nation. The military forces often display the latest weaponry, aircrafts and gadgets during the parade. The celebration usually ends with impressive flypasts by the Indian Forces. Spectacular parades at Janpath, New Delhi, consisting the Indian National Army and national flag hoisting in various parts of the country are common practices followed on this day

After attaining independence from the British rule, the new constitution was enrolled by the drafting committee under the deanship of Dr BR Ambedkar. The Indian Constitution came into effect on 26 January 1950, which declared India's occurrence as an independent republic. January 26th was chosen as the date because on this day in 1930, the Indian National Congress revealed Purna Swaraj, the declaration of India's independence from the colonial rule. Republic Day signifies the right spirit of Independent and individual India. The important symbols of the festival include the exhibition of military equipment, the national flag and military equipment. Awards are presented to the brave soldiers in the form of Paramvir Chakra, Ashok Chakra, and Vir Chakra. Even children and general citizens who have displayed courage in times of adversity are honoured with awards.

A REPORT ON ENGINEER'S DAY CELEBRATION

India observes Engineer's Day on September 15 as a mark of remembrance and tribute to Mokshagundam Visvesvaraya, who is considered as one of the greatest engineers in the country. Vishveshvarya is also known as the father of Indian Engineering because of his enormous contributions and innovations in the field of engineering and development of society. India has been celebrating Visvesvaraya's birth anniversary as Engineer's Day since 1968. He went on to become India's most prolific civil engineer, dam builder, economist and statesman. He was one of the most prominent builders of India in the 20th century. When Visvesvaraya was the Diwan of Mysore from 1912 to 1918, he transformed the state into what was then known as a 'model state'. For his numerous industrial, economic and social projects, he was called "Father of Modern Mysore"

Visvesvaraya was also the chief engineer responsible for the construction of the Krishna Raja Sagara Dam in Mysore, the biggest in Asia at that time. In 1909, when the city of Hyderabad was in danger of getting flooded, Visvesvaraya was appointed as special consultant engineer to make the city flood-proof. His inventive engineering work saved the Visakhapatnam port from sea erosion

Visvesvaraya is credited with inventing the block system, automated doors that close the water overflows. He designed and patented the floodgates which were first installed at the Khadakwasla reservoir in Pune in 1903. Visvesvaraya established Government Engineering College in 1917 in Bengaluru which was later named University Visvesvaraya College of Engineering in his honour. Due to his outstanding contribution to the building of India, the government conferred 'Bharat Ratna' on him in 1955. He was also awarded the British knighthood by King George V, which put the honorific 'sir' before his name.

We at Priyadarshini Institute Of Technology And Management habituated to celebrate the birth celebrations of Sir Sri Mokshagundam Visvesvaraya as a token lo gratitude to the legendry Engineer of the country.

A REPORT ON REPUBLIC DAY CELEBRATION

Republic Day marks an important event in India's history. It commemorates the enactment of the Constitution of India which came into effect on January 26, 1950, and made the nation into a republic. It is a well-known fact that India achieved independence from the British on August 15, 1947 after the long-drawn Indian independence movement. However, even after independence, our country had to rely on the modified colonial Government of India Act 1935 as we didn't have a permanent constitution, yet. On 29 August 1947, a resolution was created for the appointment of the Drafting Committee for drafting the official Constitution with Dr B R Ambedkar as chairman. The Constitution of India was adopted on November 26, 1949 but came into effect on January 26. Every year Republic Day is celebrated in India on 26th January with zeal and enthusiasm.

The main attraction of the day is the R-day parade which begins at Rajpath, Delhi and ends at India Gate. It consists of beautiful as well as informative tableaux by different States exhibiting their culture and heritage. The parade also honours the brave Indian Army, Navy, Air Force, police and paramilitary forces for protecting our nation. The military forces often display the latest weaponry, aircrafts and gadgets during the parade. The celebration usually ends with impressive flypasts by the Indian Forces. Spectacular parades at Janpath, New Delhi, consisting the Indian National Army and national flag hoisting in various parts of the country are common practices followed on this day

After attaining independence from the British rule, the new constitution was enrolled by the drafting committee under the deanship of Dr BR Ambedkar. The Indian Constitution came into effect on 26 January 1950, which declared India's occurrence as an independent republic. January 26th was chosen as the date because on this day in 1930, the Indian National Congress revealed Purna Swaraj, the declaration of India's independence from the colonial rule. Republic Day signifies the right spirit of Independent and individual India. The important symbols of the festival include the exhibition of military equipment, the national flag and military equipment. Awards are presented to the brave soldiers in the form of Paramvir Chakra, Ashok Chakra, and Vir Chakra. Even children and general citizens who have displayed courage in times of adversity are honoured with awards.
